Association of Users for the
IBM 5110/5120 Computer System

JULY 1980

Dear IBM Computer Owner:

According to our records, you are the owner of an IBM 5110/5120 Computer System. Congratulations! I hope your installation went smoothly and all of your application programs are up and running.

I am writing to inform, that you and your firm are cordially invited to become charter members in "CORE", the association of users for the IBM 5110 and 5120 computer systems.

Our association was formed for the following reasons:

- * To allow members to purchase computer supplies, such as IBM diskettes, paper, ribbons, report binders and other materials, all at group discount prices. Our IBM 2D diskettes (blue label) are only \$5.25 each, that represents a savings of \$17.50 a box. These are first quality disks directly from IBM.
- * To make available truly LOW cost computer programs. These are additions to the accounting programs you already have. They include applications such as: Depreciation Accounting -- which would allow you to maintain schedules for each asset item and different methods of depreciation. Mailing List Processing -- storing and printing mailing labels for the different types of customers. Word Processing -- entering and printing letters once or many times and permitting easy changes in any part of the text. These and many more programs are in our library.
- * To give members a source to buy and/or sell their used computer systems. If you need a second machine, you will discover your IBM representative will be of little assistance, because he deals only in NEW computers.
- * To provide a method for member programmers to distribute their application programs. If you have a valuable program that others could use, now you have a way to earn extra income. However, each program must pass our associations high standards to become available for distribution.
- * To share common problems and complaints each of us may have in dealing with computers. A large, strong voice when trying to solve problems with IBM or your program suppliers.

Charter members that join before October 1st will receive:

- * A FREE diskette and our Amor-tization program, a \$250.00 value.
- * A \$25.00 off coupon toward the first program purchased from our library.

In addition, you will receive an ID card and account number for quick & easy ordering of supplies. Each quarter a news letter will be sent detailing information on new IBM products, special discounts, and new application programs that have been added to our library. Our new 32 page catalog and order forms will be sent directly to you once we have received the enclosed membership application form.
